Before You Listen

- 1 Be mindful of how important the resurrection is.
- 2 There are two resurrections in the creed which is very key to the discussion.

While You Listen

- 1 What does the resurrection mean?
- 2 A Jesus who is raised symbolically or metaphorically can't save us.

After You Listen

- 1 Just as Jesus was hungry and ate fish after His resurrection, we, too, will be raised. Not to pick up from where we left off but we will be raised to a new condition of humanity.
- 2 There is where we cannot suffer, die, be neglected, be lonely or be forsaken.

WHAT DID YOU LEARN?

There were outside sources that believed the resurrection happened.
Jews would not have bought a metaphorical or mystic resurrection. That was Greek thought.

WHAT DID YOU LEARN CONTINUED

The God/man Himself, Jesus becomes the beginning of the final resurrection.
He's the head of the New Creation.

Why was Jesus' identity kept from those who initially saw Him? Reason: so he could then reason with them through all the scriptures that foretold of His death and resurrection - the risen Christ prophesied by the scriptures.

If you were making up a religion you wouldn't present yourself and all of your mates as cowards who were completely missing the point. It has a ring of truth to it.

All the chips are bet on this one event.

WHY IS THIS GOOD NEWS?

Death is a legal sentence for sin. Once we have the death thing figured out, in light of the cross and the resurrection, we can begin to live with joy and thankfulness instead of dread.

WITH JOY AND FAITHFULNESS
INSTEAD OF DREAD**
